LISTING MONEY MAY BE CLOSED IN NEAR FUTURE

Additional Grant is Made to Randall of $8,000 Following Destructive Blows Here

WHEAT SUFFERED

Temperature Dropped to Low Point, and Winds Do Damage—Urge Listing Applications

No closing date has been set, but it was indicated yesterday that the free money for listing would not continue longer than another week or ten days. Farmers who wish to get this money are urged to make applications at once. Several counties have used their allotments, and the money from Randall may be transferred without notice unless used.

An additional grant of $8,000 for listing was received Monday by County Agent W. H. Upchurch. Farmers are advised that the money is available, and that applications should be completed as quickly as possible.

The destructive wind of Sunday will cause more land to be listed for row crop than was estimated last week. Fields were blowing in the county Sunday which have withstood the high winds of both last and this spring.

There is no way to estimate the probable wheat damage that the wind and the heavy freezes of the past week have done to the wheat. Only good rains will disclose just what percent of the wheat yet remains in condition to make a yield which will be profitable for harvest.

Farmers who have been in Canyon this week have been discouraged over the prospects. The drifting sand and dust has wrought much damage even in fields which have been saved from the bad erosion which has taken place in many sections of the Panhandle. The freeze is said to have caused much damage.

The temperature stood at 17 degrees above zero Monday morning and 23 degrees above Tuesday morning. Very little hope is expressed for any fruit having survived in this section.

Four days will be spent in the Yellowstone National Park, and three at the Grand Canyon of Arizona.

Credit in W. T. will be given for the work taken during the tour. The National Park Service is cooperating in furnishing material which will be of great interest for those making the trip. The party will be limited to sixty people.

City Election Brings Out 148 Votes—All For Present Officers

MAYOR C. R. BURROW

W. S. AMEND

H. W. CRAIN

An unusual election was held in Canyon Tuesday. 148 ballots were cast in the city election. Three names were printed on the ballots, and each of the three candidates received 148 votes. It is very unusual that all candidates received the same number, with no muti lated ballots.

Mayor C. R. Burrow, Commissioners W. S. Amend and H. W. Crain were candidates to succeed themselves on the City Commission, running without opposition, and the complimentary vote signifies the uniform satisfaction which they have given during the four years which they have served together on the commission.

Several months ago all members of the commission announced that it was not their desire to stand for a third term, but upon the insistent demand of citizens, the mayor and commissioners agreed a month ago to stand for re-election.

Work Order Starting Ten Cottages Is Expected This Week

With final approval for the transfer of the building contract from J. B. Maxey to C. S. Lambie, the work order to start construction on the ten cottages is expected most any day. The cottages will be erected on W. T. campus northeast of Cousins Hall.

Three car loads of lumber have been placed on the ground.

The streets and walks have been laid off and ready for hard surfacing.

Mr. Lambie is ready to start on a day's notice on both the cottages and the swimming pool on which he holds the contract.

Sam Shafer arrived here yesterday from Tyler and will be foreman on the construction of the cottages.

Increased Number of Cars Registered In County For '36

Brings More Money To County Treasurer for Road and Bridge Work —Drivers' Licenses

More automobiles are in use in Randall county today than a year ago.

The check up of receipts shows that the county has collected $3,149 more this year from cars, trucks and busses than had been collected last year up to the present time.

1944 license plates have been issued from the office of Bob Barnett, Sheriff, Tax Assessor and Collector. Of this number 1,600 are passenger cars, and 344 are trucks and busses.

The total receipts for these plates amounted to $26,593.08.

Cars will continue to be registered throughout the year, which will bring the receipts to a considerably larger figure.

A total of 3,746 drivers' licenses have been issued. This number is considerably under the estimate which was thought possible for the county.

Former Resident Died Sunday at Home In Indiana

J. R. Harter of Union City, Indiana died at his home there early Sunday. He was 81 years of age.

Surviving him are his widow, Mrs. J. R. Harter, and daughter, Mrs. Howard Mullen of Union City, Charles Harter of Happy and Ralph Harter of Canyon.

Mr. and Mrs. Harter came to Canyon in the early years of its development and are true pioneers of the Panhandle. They moved to Union City, Indiana, five years ago where they have continued to make their home.

While Mr. Harter had been in poor health for some time, his condition was not known to be dangerous until Friday.

Neither of the sons were able to go to the funeral.

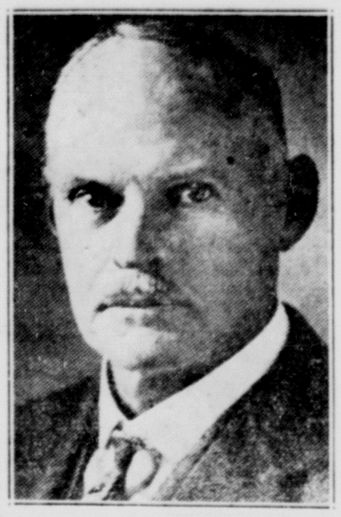
Other school children are invited to plan an inspection of the News plant, which they will find very interesting.

J. W. McCrerey Is Candidate County Commissioner No. 1



J. W. McCRERY

J. W. McCrerey announces for Commissioner, Precinct No. One, (Canyon Precinct) and submits the following statement for consideration of the voters of this precinct:

Four years ago I was solicited by a number of voters of this precinct to announce for Commissioner, but at that time declined to give the matter any consideration. Again this year I have been solicited by a large number of representative citizens to announce for this office, and after some consideration have decided to do so.

I have always been a Democrat and am strong for the present Democratic Administration.

I was born on the western prairie sixty years ago; have spent nearly a half century of that time on the western farm, ranch, and range, and have lived the past twenty-seven years in Armstrong and Randall counties. This is my permanent home and I have an interest in the affairs of Randall county far in excess of the salary I might receive from any public office.

I want to assure the voters of this precinct that I will fully appreciate the support of each one of them, but guarantee that I will not worry them with a personal canvass or solicitation in connection with this announcement, however, will be pleased to discuss with the voters any matters pertaining to this office.

Should the voters decide to nominate and elect me to this office, I will exhaust every effort to advance the best interests of the affairs of Randall county, with special attention to this precinct. I might say a lot more, but what's the use? You know me and I know you, so let's get together on this proposition.

Sincerely,
J. W. McCRERY.

The Buffalo Band will go to Tucumcari and San Jon Friday to give concerts.

Local Chamber Starts Beautification Campaign

Residences Will Be Judged Now and Later in Season to Show Improvements

The City of Canyon will co-operate with the Chamber of Commerce in a beautification campaign which will be started next month.

Different classes of homes will be arranged by a committee which will soon judge all homes at the present time, and then re-judge the homes at a later date in the year in order to make comparisons in determining those who have put forth the most efforts in making the town beautiful.

The City Federation of Women's Clubs has endorsed the plan and will work with the city and Chamber of Commerce officials in making the campaign a success.

Prizes will be offered for those whose places show they have made the greatest efforts during the year to improve the looks of their homes.

The rules to be adopted to seek to make the contest so that every home owner or renter will have an equal chance to win.

All citizens of Canyon are asked to co-operate in the campaign to improve the looks of the town.

Committee To Pass Advertising Schemes Submitted Merchants

The Canyon Chamber of Commerce has appointed a secret advertising committee to protect the business firms from the unworthy projects which may be offered.

If a solicitor comes into any place of business in Canyon soliciting funds for some project with which the proprietor is unacquainted, use the following procedure.

Ask him for his letter of endorsement of the Chamber of Commerce.

If he has none, direct him to W. A. Warren, president, or Levi Cole, secretary of the Chamber of Commerce.

He will be required to write out the merits of his project, stating the prices he is asking and how the project works.

His letter will be presented to a secret committee to pass upon the merits of the scheme.

This procedure will save the business houses of Canyon hundreds of dollars annually in schemes which are not worth a cent to any one but the promoter.

Every business man is urged to co-operate with the Chamber of Commerce in this matter.

Guest of honor for the day will be Miss Susan Janney Allen of Pembroke, Bermuda, who came to see for the first time the Museum in which she has been so greatly interested, and to which she has made the largest individual donation in the way of Indian relics. Miss Allen became interested in the Society's work two years ago, and after investigation decided to place here the wonderful collection which was gathered by her father and which she continued to gather after his death.

A small part of the Allen collection is now on display at the Museum, but the major portion will not be on display until the new display cases have been received. Of the $25,000 given the Museum from the Centennial fund, $8,000 has been set aside for cases, and the order for these is being placed through the Board of Control.

Miss Allen has been in West Texas many times before, and is very interested in everything connected with this section. Yesterday she was the guest of Plainview at the Dairy Show and saw for the first time a West Texas rodeo.

Prof. J. Frank Dobie of the University of Texas will arrive Friday morning and will speak at the banquet at 6:30 o'clock at Cousins Hall. His subject will be, "Traditions of the Cow Country." W. H. Patrick of Clarendon, president of the Society, will preside at the business session and at the banquet.

Reports of the activities of the Society will be given by Prof. L. F. Sheffy, secretary of the Society; Floyd V. Studer and C. Stuart Johnston whose work in the fossil beds is gaining nation wide recognition.

More than 200 tickets have been sold to the banquet, more than half going to citizens over the Panhandle interested in the Society's work.

PANHANDLE MEMBER PRESS ASSOCIATION

A local man stated the other day that he has heard many citizens state that they will vote against every person who is now in office. If very many citizens make such a statement it is a sure and certain sign that Democracy is a failure. In the first place, if there are unfit office holders, chances are they were elected because of the fit of passion of the voters in voting blindly against one candidate rather than voting for some candidate. The responsibility is the voters' rather than those seeking office. In the second place, it is childish and un-American that all officers be charged as dishonest or unfit. If this indictment should prove true, then Democracy is a supreme failure, and those who cast the ballots should be deprived of the franchise. It is true that many, many candidates who are wholly unfit slip into public office, but a vast majority are honest, capable men and women. In the third place, if the voters were unable to make a sane choice in selecting capable officers two or four years ago and have elected some one they now dislike, what assurance is there that the same mistake will not be made in selecting an entirely new group to run the government? As a rule experience counts far more than unsupported promises. Those who have made the statement that they intend "to turn the rascals out" should consider well the reflection which this declaration is upon themselves before continuing to make such wild statements.

Hauptmann is dead, but federal agents will continue until many of the mysterious unanswered questions regarding his crime are settled. A majority of those who have been closely connected with the case believe that Hauptmann was a lone wolf throughout the crime, while others who have investigated, believe that other persons should be punished for having a part in the crime. The federal government will never close the case until these questions have been answered in a satisfactory manner. This famous case made America's method of dealing with crime the laughing stock of the world. The trial was more of a theatrical event than a trial for the sake of justice. The action of Governor Hoffman in attempting to prove the lie against everyone connected with the prosecution has never before been witnessed in this nation, and should never be repeated. Crime does not pay; but the dilitory methods of American justice has convinced the criminals that it pays to take a chance.

It is predicted that the Panhandle will now have seven "fat" years in comparison to the seven "lean" ones through which we have been going. Prediction is that bountiful rains will fall and that crops will again bless this section. If there is any section which certainly thrives on the promise of next year it is the Panhandle. While hope is not entirely given up for some wheat this year, unless it rains within the next fifteen minutes this hope will continue to wane very rapidly.

The News called attention two weeks ago to the splendid program offered at W. T. for the coming summer session. Never before has a program of such wide interest been prepared for those who would attend during the summer. A score of outstanding citizens of Texas and other states will give special lectures which will be instructive and helpful to all who hear them. The attendance this summer should be the largest in the history of W. T. Canyon citizens may assist very greatly in increasing the attendance by writing to their friends inviting them to spend the summer here in W. T.

11,565,000 persons are expected to visit Texas this year to attend the Centennial. Quite a good per cent of them will come through Canyon, visiting the Palo Duro State Park. The inspection of Canyon in the near future should rate Canyon as a clean town, one in which tourists may find comfortable quarters for the night. A real clean up campaign during this month will be of great value to the future of the town.

It is nothing new for West Texans to hear that they have been paying more than their share of the state taxes; but it is new to hear a state official admit that this section has been imposed upon. If the present tax survey will adjust the taxes of the state in favor of West Texas, the money spent for the survey will be wisely invested so far as this section is concerned.

Chancellor Hitler knows how to hold an impressive election. His name alone was printed on the recent ballots, and in case it was scratched, the ballot was called mutilated. It could hardly be termed the Democratic system.

Those Texans who were formerly Kentucky Colonels are now mere privates in the rear rank. Rube Laffoon, while governor, made 17,000 colonels, much to the disgust of the people of his state.

One death in every nine is the result of an accident which means that one-ninth of the lives lost could be saved if people were a little more careful.

IN THE WORLD OF SPORTS

Pedro Montanez, Fresh From Series of Impressive Knockout Victories, Demands Crack at Lightweight Champ Canzoneri

BY PHILIP MARTIN

PEDRO MONTANEZ, current flash of the lightweight bracket, sports a large chip on his muscular shoulders these fine spring days. It is whispered about that the Cuban whirlwind wants a crack at Tony Canzoneri, the titleholder.

No other will do, says Pedro, but we have a sly notion that for the nonce he will be content with a song and dance with Larrupin' Lou Ambers. This bout probably will come off in the early summer. There is talk of a Montanez-Barney Ross go, too.

Ambers also has a just claim on a championship match with Canzoneri. Tony outstepped him for a 15-round decision last May, but the Herkimer Hurricane has battled his way back into the front ranks. He recently poked out a decisive win over Baby Arizmendi and showed a paralyzing wallop, hitherto unrevealed.

• • •

BUT Montanez also has built up a case for himself. Since landing in the U. S. A. last October, he has confined his activities to New York and vicinity, but his polished ring tactics have earned him a rep extending far beyond Manhattan's bounds.

Only a few of the 12 foemen he has met since last fall withstood his withering attack for the full route. Most of them went out via the refrigeration treatment. Among the casualties were Steve Halaiko, Phil Rafferty, Pete Mascia, Joey Greb, Jack Stanley, Jimmie Murry, Al Roth, Paris Aplece, and Bobby Pacho, all stout fellows.

Above all the others, the Roth and Pacho bouts presaged the tough going Canzoneri may have if he is called upon to face Montanez. In his tussle with Roth, Pedro breezed through 10 rounds, hitting Al at will. Canzoneri drew the referee's nod over Roth only after 15 close heats.

Pedro Montanez, ambitious Cuban, is eager to fight Tony Canzoneri, left inset, for the Italian's lightweight crown, but one night this summer probably will find himself coming out of his corner against Lou Ambers, right inset, instead.

THE brown boy's European record also will bear close inspection. In 40 arguments on foreign soil, Montanez dropped but three bouts, drew in four, and captured 33—18 by knockouts.

He rubbed out the European lightweight, Orlandi, in 10 frames in Milan, mauling him so badly that the Italian quit the ring for good, after several months in the hospital.

So a Montanez-Ambers get-together seems to be just the thing to draw a fine gate. Both boys are killers inside the ropes and the customers would witness a real, honest-to-goodness battle.

CANYON NEWS FORTY YEARS OLD

Higgins News: Friday, March 20, 1936, the Canyon News got out an extra edition honoring the 40th anniversary of the paper and more than that—the News shop kept open house and visitors were shown over the plant and each department was visited by the people of Canyon and a demonstration was given of the way newspapers are made. Breakfast was served to 100 guests, Editor and Mrs. Clyde Warwick being host and hostess.

August 1, 1910, C. W. Warwick assumed the management of the News and for nearly 26 years the paper has been under the same management. The News is a first class paper and the people of Canyon are fortunate in having a man like C. W. Warwick at the head of the biggest business proposition in Canyon. And tho few citizens realize the fact, the newspaper represents not only a large outlay of cash, but it also means an investment of good citizenship, town loyalty and faith in the town and its well-being. A newspaper can not be made a going concern unless it has capital plus grit, and hard work.

Yet, behind these, must be wisdom. To know what to say, when to say, and how to say it, is by no means easy. The loyalty of the people of Canyon to their home paper has also had much to do with the prosperity of the News. No newspaper can succeed without the patronage of its business men and its people as a whole.

Long may the Canyon News live to tell its weekly story of Canyon and her people. May all the ads be big ones and may its editor and manager wax fat on the good things of the best land on earth—the good old handle of the Pan of the whole universe.

Pick Out the One Who's "Nerts"

Travelers Ins. Co. Safety Service.

It would be suspected that when people rush about it's because of some good reason. Perhaps going to a fire, or something like that. It has been said that there's a surplus of leisure in America, but that everybody is in more of a hurry than ever before. Automobiles are made faster than ever. People drive faster than ever. They even die faster than ever.

Most persons think the dare-devil aerial stuntster plays fast and loose with life. They say, "I wouldn't do that." They shudder when they see a window cleaner hanging by a life belt, high above the street. Most persons say, "I wouldn't do that." They watch with bated breath the structural steel worker walking almost gingerly around on the skeleton of a huge skyscraper. None of that for the average person.

The stunts of the rope walker, the trapeze performer, the high diver and all his brothers and sisters are not pursuits for the mine-run of individuals. Not by a jug full. But few drivers regard in a serious light the hazards of motoring.

To most there's nothing to worry about when a car is being driven at high rates of speed, or when a curve or corner is taken sharply, or when another car is met almost head on at the top of a hill. The record of the occurrence of automobile accidents last year—the smashing of cars with trains, against trees and telephone poles and against bridges, the wrecking of cars going off the road, and the collision of cars at innumerable places—all go to indicate that many drivers don't realize the constant risks which only the utmost care makes it possible to avoid.

Swimming Team Will Meet NMMI Cadets Saturday

West Texas' first competitive swimming team will test its strength Saturday, April 11, when they travel to Roswell to contend with the Cadets of New Mexico Military Institute.

Eighteen aspirants have been regularly meeting the practice sessions, and Coach Mitchell Jones pronounces them as inexperienced but ready. The possibilities of a victory in this water classic are slim, but Coach Jones contemplates on stimulating an interest in this sport, and to maintain it on a larger scale when the new swimming pool is available.

Wayside Items

School election for trustees was held Saturday for Wayside. W. I. Lane, Mesdames Merle McGehee and Agnes Stockett presided. Result, D. L. Adams as county trustee at large; W. C. McGehee, trustee for Precinct No. 3.

M. C. Sluder and family of Happy visited the Sluder home Sunday. The freezer of ice cream they brought didn't go begging.

Rev. N. S. Daniel and family were at Wayside Sunday. He gave us two sermons, morning and at night. Mrs. Daniel has been quite indisposed a month; her fourth attack of appendicitis. Not at all well yet.

Mrs. Ida Sluder has been ailing for some days, able to be up at present.

W. R. Franklin was sick Sunday; better Monday. Glen was sick Tuesday.

Mrs. Emma Franklin of Canyon, reached Pomona, Calif., April 1st. Made the trip o. k. but was quite tired. She is visiting her youngest daughter, Mrs. Ada Smith and family. She says she likes the rain there better than the dust here. She has lived near Wayside a long time.

W. D. McGehee motored to Canyon Tuesday, back by Happy.

We very much appreciate the nice sunny days of Monday and Tuesday. A wise provision of the Almighty. We don't know what is ahead.

Miss Aline McGehee spent the week-end at home in Wayside.

Messrs. Charlie Stewart and Alexander of Claude were at Wayside last week attending to business.

W. J. Sluder thinks most of the fruit has been killed by the cold. We fear the Easter storm will finish the prospect for fruit here.

Mrs. Fletcher Rogers of Happy, a former Waysider, is in Austin for her health. But little or no improvement in her condition, we understand.

'Greatest Show on Earth' Heads North for Most Ambitious Season in Years

SARASOTA, Fla. — This balmy city's November-to-April circus ended this week when the combined show of Ringling Bros. and Barnum and Bailey moved northward to open its 1936 season in Madison Square Garden, New York.

This year it was an enthusiastic departure from the circus' winter home for—expecting the most prosperous season since right after the war—the big show will play a greatly extended route.

Recalling that presidential years long have been lean ones for the amusement business, this may be taken to indicate prosperity's return—at least as far as the circus is concerned.

While many towns are fortunate to see one first-class circus a year, residents of Sarasota can view the world's largest any day from November to April simply by strolling down to the extensive winter training quarters, which occupy a 700-acre tract. Yes, circus performers—and even circus animals—must rehearse their acts the year 'round, for a job under the "big top" is not a lazy one.

• • •

AT the circus grounds visitors saw the Great Otari Troupe—10 of Europe's most spectacular athletes — shoot through the atmosphere from all directions, performing the most intricate of routines midway in their amazing flights.

Then there were the Great Wallendas, who ride bicycles three deep on the high wire; and the three Zacchini Brothers, human cannonballs.

Hugo and Vittorio Zacchini had a family argument this winter, and the act has been changed. In seasons past, Hugo, the boss, allowed Vittorio to share the honor of being blasted from the high-powered artillery piece, but this year Hugo and Mario will be the fodder—and receive the applause—while brother Vittorio performs the hum-drum task of setting off the big gun.

In addition, spectators saw Dorothy Herbert, an exceptionally pretty girl who not only rides rearing, jumping horses without reins or stirrups, but also throws in some novel tricks.

• • •

THERE were many other acts, including the Repenski Riding Troupe, starring 5-year-old Clara Repenski; the Uyeno Acrobats from Japan and the Yom Kam Troupe from China; and, of course, the inevitable "ferocious beasts from darkest depths of Africa and Asia."

The circus holds a dress rehearsal before leaving winter headquarters at Sarasota. The Wallendas are shown on the high wire in the upper left, with trick rider Dorothy Herbert, top right. In the picture at the lower left one of the show's heavy, but entertaining, actors is shown going through his paces. The Repenskis, lower right, and their "guaranteed hair-raising" riding act are another of the circus' big features.

Biggest job before leaving Sarasota was polishing up. The elephants received their annual manicures; the giraffe took a scalp treatment. And, since all that's old does not glitter, those costumes too costly to be replaced each year had to undergo a thorough gilding to regain the dazzle that is a tradition of the "Greatest Show on Earth."

Playing outside the New York and Boston Gardens, the circus requires 17 acres of ground, 41 miles of rope when the production is under canvas.

The circus has gone from Sarasota and Sarasota will miss it. But next November the big show will return—more prosperous than ever, if the wishes of this sunny southern town come true.

Rapid Work Being Done on City Parks By The Federation

Rapid progress is being made on the three city parks by the Federation of Women's Clubs, which sponsors the improvements being made.

The planting of trees and shrubbery on the quarter block south of the square is practically completed. The walks have been laid out and lined by rocks, and a caliche base has been placed.

Trees have been planted around the lot north of the square, and the ground levelled.

Work has been started on the lot east of the Fronabarger home. A monument to Colonel Chas. Goodnight is supposed to be erected on this lot in the near future by the National Parks Service, but the project has not been finally approved.

The City Federation started the park movement several months ago and has asked all clubs of the city to co-operate. The Commissioners Court and the City Commission are assisting these projects.

Texas Books Are Being Added To Public Library

Help Keep Canyon Clean!

Centennial Dance Pageant Will Be Held Here April 17

The best entertainment that the college has had this year will be the Texas Centennial Dance Pageant presented by the Women's Physical Education department is the opinion of a large number of students and teachers who have attended the rehearsals.

This decision is based on the glamor, beautiful costumes, dances, and the graceful dancers taking part in the pageant.

The cost of the entire pageant will reach approximately $150 according to Miss Ruth Cross. Much dying of materials by Miss Cross and Miss Isabel Robinson of the Art department adds greatly to the atmosphere of the pageant.

The pageant is the final conception of the dance students of the department. The superior experience, training, and imagination of Miss Cross, director and Mrs. Florence Fulton needs special appreciation by dance lovers.

The pageant will depict the vitality and dignity of the struggle of the people and life of early Texas history.

The Physical Education department is not the only department in the college represented in the pageant. In fact the pageant is an all-college affair. Members of the voice department, art department, speech department, English department, manual arts and the music department, are a few of the departments of the college that are represented.

Added to the dances will be the story written especially for the pageant by Dr. Arlin Turner of the English department.

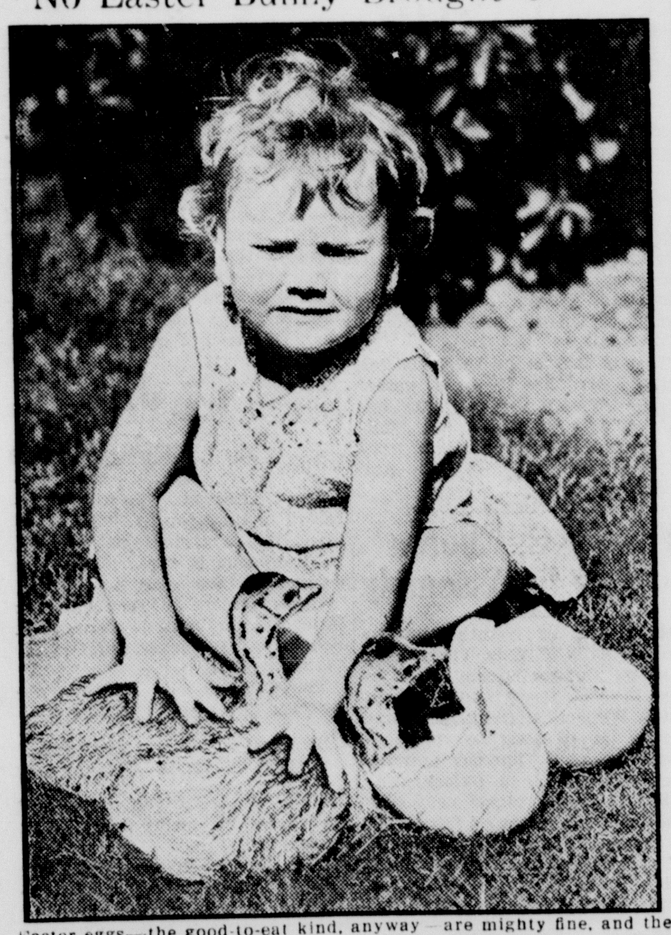
Many ex-students are expected to attend, since the pageant is to celebrate an all-state affair. It is expected to be a form of homecoming for many of the ex-students.

About 250 special invitations are being sent out to ex-students and friends of the college.

The program will have 154 performers, each of whom has worked for months on his individual part.

The admission will be 25 cents.

No Easter Bunny Brought These



Easter eggs—the good-to-eat kind, anyway—are mighty fine, and the hunt for them is much fun. But when you run across two such as were found by little Marilyn Brown of Los Angeles—well, it's mighty perplexing, as Marilyn's puzzled expression indicates. No sooner had this young searcher found the oversized eggs than out stepped a couple of baby ostriches. Marilyn, incidentally, had wandered into the Los Angeles Zoo on her hunt.

IS IT WORTH IT?

Did you know that an April Fool holiday had valuable and important qualities?

A day for an outing occasionally is worth more than several lessons on nature in a text book, because you can see and judge for yourself instead of taking some one else's word. An April Fool holiday furnishes an opportunity for this type of education, and to make this type of a lesson a success, the school needs the help and cooperation of every teacher and parent.

WE WANT A FOOTBALL TEAM

What would Canyon High School be without a football team? Canyon High needs more boys out for spring football. What if you are small? That's not all that counts. Don't wait until next fall to start out for football! Start now! Spring practice is to teach football which is to be played in the fall, and to start the inexperienced players. Check out your suit now even if you are small!

"Don't put off until tomorrow what you can do today."

GUESS WHO

She dances, she sings, a piano she plays,
Her looks are pleasant and so are her ways,
Her hair is yellow, a Junior is she;
She's a swell ole' girl we'll all agree.

Answer to last week's "Guess Who," Mavis Harden.

Cakewalkers Move To Tune of Bounding Ball and Band

The whole community went round and round with cake, suckers, and basketballs last Friday night to the tune of the Grade School Band and the voice of Jack Taylor, senior president, booming through the loud speaker when the Senior Class sponsored the first Community Night in Canyon including a double-header farce basketball game and a cake walk.

Cake Walk was introduced into Canyon with great popularity. Thirty cakes and more than $20 in merchandise were given away as prizes. Prominent business men of the town played the men of the public school faculty, and the senior boys in boxing gloves played the senior girls games of basketball.

E. W. Woods should have clean suits. His father is owner of the Monarch Cleaners, and what should he win at the cake walk but a suit cleaned and pressed by one of his father's competitors, The Toggery.

"Dudo" Wins Bath Powder

Douglas Brasuel, better known as "Dudo," won a box of bath powder, and Jack Middleton won a box of cold cream face powder.

Canyon really found basketball talent in a game between the faculty and business men. The faculty won by a score of 29 to 20. Mr. R. G. Stephenson, band director, was high point scorer of the game with 12 points. Ralph Cabe followed with 10 points.

Mr. Pope and Mr. Carruth went in as substitutes; the referee tossed up the ball at center. The whistle blew. "Two free goals for the merchants, Pope and Carruth didn't report to the referee." Did Mr. Pope blush, and Mr. Carruth look dumb?

Rev. Charles Dickey, better known as Preacher Dickey, made as good a referee as a player, and he enjoyed it far better because he could blow the whistle; this amused him.

Stephenson Is "Hero"

Mr. Stephenson seemed to be the "hero" of the evening. Besides making the most points in the basketball game, he directed the band between quarters and during the cake walk. J. C. Bellah directed the band while Mr. Stephenson played ball.

Of course, most of the students backed their teachers, but the seniors were brave enough to root for the merchants. Even the pep leaders of this year's Pep Squad were divided. Marie O'Donald led the students, and Mary Ella Davis, the seniors.

Those playing for the merchants were Lee Foster, Ralph Cabe, John Brown, Jim Cabe, Bill Castleberry Dan Sanders, Delbert Lowes, Clarence Thompson, and Charles Dickey.

The faculty basketeers were Coach C. C. Jones, Milton Sanders, Coach Gerald Brown, Aubrey Fox, R. G. Stephenson, Principal John B. Pope, and Superintendent I. B. Carruth.

Senior Girls vs. Boys

Last but not least came the basketball game between the senior girls and boys, who wore boxing gloves. The game was played according to girls' rules. Jack Taylor could not remember not to cross the center line. The boys found it hard not to double dribble. Even with these handicaps the boys won over the girls by a score of 12 to 9. Coaches Brown and Jones were sometimes umpiring a boxing match, but they did not fail to foul the boys for clinching.

Firms donating merchandise for the cake walk were Canyon Grocery, Green's Grocery, Cooper's M-System, M. E. Moses, Consumers Service Station, Johnson and Son's Filling Station, Monarch Cleaners, The Toggery, Mickle's Barber Shop, Jarrett Drug Co., Scott's Service Station, Hartman, jeweler, The Buffalo, Bellah Grocery, People's Store, City Pharmacy, Buffalo Barber Shop, Canyon Hardware, Baker's Service Station, Walter Irvin, Inc., Burroughs, jeweler, Evelyn Beauty Shop, Cleland Grocery, Gulf Refining Co., Gamble and Cheatham, Bible Shoe Shop, City Cleaners, Thompson Hardware Co., Reid Print Shop, Burrow Lumber Co., The Canyon News, City Cafe, Palace Cafe, City Market, and Palo Duro Barber Shop.

The seniors served cake to all band members and business men playing ball.

Ethel Ruth Collins, '29, visited her mother, Mrs. T. W. Collins, over the week-end.

Gerald Dean Heath, senior, visited in Plainview last week-end.

The students who have been going to school in the Canyon Public Schools since 1926 are: Sherman Higdon, Marielle Oldham, Carolyn Mayfield, Billy Greenfield, Kate Donnell, J. C. Bellah, Evelyn Cluck, Scott Downing, Odell Miller, Betty Ruth Solomon, Mary Catherine Wirt, and Jean Slack.

Pageant in 1933

For the seventh grade play in 1933 each pupil of the class contributed a part to the play, which was a pageant of early history of Canyon.

When freshmen in 1934, the class candidates for king and queen, Jack Middleton and Mary Collins were crowned King and Queen of the high school. When freshmen this class won the Loyalty Campaign and started the first White Pep Squad.

In 1935 the sophomore girls won the indoor baseball and basketball matches between the classes.

Largest Class

This year the junior class has had the largest representation in all the sports, and has the largest class enrollment in high school. There were eight juniors who lettered in football. Four junior boys lettered in basketball, and Tom Harris and Darwin Dobbs, juniors, made all-tournament team at the Dimmitt Tournament. Junior boys that made the intramural tournament team are John B. Pope and Scott Downing. There were six junior girls who lettered in basketball; and three junior girls made all intramural tournament team; they were Evelyn Cluck, Mavis Harden, and Dell Bagley. Jack Middleton will be next years football captain, and Mary Collins will be captain of the girls' basketball team.

C.H.S. Commercial Classes Present Assembly Apr. 15

Assembly next Wednesday will be under the supervision of the commercial classes of Canyon High School with Miss Ethel Rowland, directing.

Dialogues and typing contests will be given by the class members. Those taking parts are members of the typing, bookkeeping, junior business training, and commercial law classes.

All Classes Picnic In Canyons Wed.

The high school classes and their sponsors took advantage of the April Fool holiday and went picnicking in the Palo Duro Park and Ceta Canyon.

The time was spent in hiking, picture taking, and various other amusements.

Classes left the school house from 9:30 to 11 o'clock in buses and cars, and returned home from 2 o'clock until 5 o'clock.

Thursday, students and teachers were sore from too many falls and too much climbing. Mr. John B. Pope Jr., the junior sponsor, was suffering from a black eye the rest of the week.

AGRICULTURE CLASS GOES TO CONWAY THURSDAY

Next year's Agriculture class went to Conway last Thursday in order to witness the means of cultivation, from the first ox team up to the present day machinery.

Demonstrations were sponsored by International Harvester Co. through the different towns represented. Every person was required to put his name, kind of machinery he had or was interested in and remark about it before he could receive a barbeque dinner.

Mr. and Mrs. Aubrey Fox and Mr. S. B. Orton have been attending to the store trade while Mr. and Mrs. Stroud were not able to work.

LOCAL CLUB HAS TWO DELEGATES IN CONVENTION

COX AND BLACK DELEGATES TO HI-Y MEETING IN AMARILLO

The District Hi-Y Conference was held in Amarillo last Friday, Saturday, and Sunday at the Central Presbyterian Church with Kenneth Mauldin, presiding. Sewel Cox, local Hi-Y president, and Sanford Black were the only delegates from Canyon High School to attend the conference.

Sewel Cox Speaks

Sewel Cox made the response to the welcome given by Mr. Charles Rogers, superintendent of Amarillo Public Schools.

"Christian Use of Leisure Time" was the theme of the meeting. The conference was in session from 3:30 last Friday afternoon until Sunday noon.

Five Important Speakers

The conference speakers were: Dr. Edwin A. Elliot, National Labor Relations Board, Fort Worth; Dr. J. A. Hill, President of the West Texas State Teachers College, Canyon; Mr. Roy Breg, Executive Secretary Allied Youth, Washington, D. C.; Bud Thompson, Texas Technological College, Lubbock; Grover C. Good, Acting Secretary Texas Y. M. C. A., Dallas.

The discussion groups, one of the main features of the meeting, were supervised by L. McNeill, dean of boys in Amarillo Senior High School.

By Blakely

The 15 football suits recently ordered are now ready for use by any boy who desires to come out for spring training. The players practiced only one day last week because of the sandstorms, the Agriculture class' trip to Conway, and April Fool day. Most of the boys are small, but are coming right along with their blocking and tackling. With the new order of suits Coach Jones expects more boys to be playing.

Gold basketballs were ordered for members of the basketball team as an award for their unusual work this season. Their sweaters were ordered several weeks ago.

Senior boys (boxing gloves) defeated the senior girls Friday night in a close game with a score of 12 to 9. They played girls' rules.

We have a nice faculty team this year. The faculty team conquered the business men's team Friday night. The game was very exciting and the faculty led by Mr. Stephenson and Coach Jones coming out with the big part of the score.

Coach Brown's boxing and wrestling team recently started coming along fine for the number of practices. Wesley and Sewel Cox, Lavert Avent, and Leslie Lisle are some of the prospects.

Juniors Present Three-Act Play at High School

Did you ever see:

Melvin Calliham make love to Mavis Harden?

Dell Bagley and John B. Pope III in a black-face comedian act?

Mary Catherine Wirt, Hazel Benton, Carolyn Mayfield and Billy Greenfield act as typical co-eds.

Mary Collins act like an unbearably bossy Dean of Women?

Jack Inman in the role of a tough plain clothes man?

C. L. Drummond, R. E. Prichard, and Sherman Higdon act as typical college brothers?

Marielle Oldham playing a heartless old lady superintendent?

Willard Childers as a real "prexy"?

Or J. C. Bellah driving a taxi?

If you've never seen any of the above, be present at "So We'll Just Pretend," Junior play, under the direction of Miss Edith Shields in the High School Auditorium. The date for the play will be set in the near future.

Grade School Has Amateur Nite For Second Time Tues.

Shirley Ann and Claribell Newberry took first and second prizes, and Kenneth Nickelson won third prize in the Grade School Amateur Night held in the high school auditorium March 31.

The novice performers from the grade school furnished a full hour of keen amusement and merriment for an enthusiastic audience.

Shirley Ann Newberry Wins

Shirley Ann Newberry, only seven years of age, won first by unanimous handclap. She sang "Lulu's Back In Town," and she did a tap dance to complete her number.

Claribell Newberry sang "On a Sunday Afternoon" to take $1.50 for second award offered.

Kenneth Nickelson, a cotton-headed grade school lad, was awarded third prize. He turned cart wheels, forward hand-springs, and walked on his hands.

Many Contestants

Many other kinds of performances were presented by the novices. Miss Ann Smith's tumblers were popular candidates and put on a good tumbling exhibition. Mr. R. G. Stephenson's four rhythm boys also made the music go round and round, but they did not go around enough to win a prize. Leroy Wooten imitated a pig and a hog. Andy Walsh played a clarinet solo. Juanita McCarter and Mary Platt sang. Bob Pope and Wendell Morrissett boxed a two-round draw. Samuel Johnson played a piano solo. Other performers tried hard to win the prize.

Gridsters Receive Football Breeches

The Canyon High School Athletic Department received 15 new pairs of football pants Tuesday, to replace the many old pairs worn by spring players.

These pants are to be used for practice. Several pairs have been issued to those who need them, and the others are to be saved until further need. Varying sizes were purchased, in order to properly fit all players.

In '34, when the juniors were freshmen, they had a home economics club of their own because they had too many members to be included with the other classes.

No doubt you have read about the excitement created in scientific circles by the announcement of the POLYmerization process.

It has been hailed and acclaimed on the radio and in the press as a miracle of modern chemistry. The benefits it brings to gasoline have been lauded to the skies. No single improvement in motor fuel manufacture has ever been greeted by such unanimous approval of technical experts.

BUT . . . in the final analysis . . . one thing, and only one thing, counts with any experienced driver: "How does Poly Gas work in *my* motor?"

The best answer to this question, the most convincing and conclusive proof that POLYmerization improves gasoline quality, is just one trial tankful of the new Phillips 66 Poly Gas.

It costs nothing extra, but it *must* deliver extra value because our sales of Phillips 66 Poly Gas are right now at the highest levels in the history of the company. And as a famous slogan puts it—There must be a reason! Find out the money-saving facts by getting a tankful of the new Phillips 66 Poly Gas.

Twenty-five Farmers Have Asked for Crop Loans for Planting

Application for crop loans have started in Randall county, and 25 farmers have filed their applications. Last year about 250 applications were received.

Farmers who know that they will need these loans are urged to make the applications at once in order to be insured that the money will be available when planting time comes.

The government is more lenient this year in making the loans, although the amount has been reduced to $200 to each farmer for these loans.

Applications are being received at the former office of the Chamber of Commerce, which is also headquarters for the sanitary work.

Boy Scout Work Presented Tuesday at Rotary Club

Old age assistance and boy scout work were discussed Tuesday at the luncheon of the Rotary Club.

J. S. Fischer of Amarillo was introduced by O. W. Gano. Mr. Fischer is director of old age assistance in this district, and states that all applications will be thoroughly investigated before the first of July. Three things are essential in the proof for application: 1, that applicant has lived sufficiently long in Texas; 2, that applicant is 65 years of age; 3, the need of assistance, and that there is no one legally bound to support applicant.

Levi Cole, scoutmaster of the local Boy Scout troop, introduced Chief Marvin Paul of Amarillo. 20% of the boys 9 to 18 years of age in this country are taking scout work. The other 80% should be reached. 10 billions of dollars are spent annually on crime in this nation, but none of this is necessary for boys who are scouts or who have been scouts, stated Mr. Paul. Since Rotary has sponsored scouting in Canyon, Mr. Paul urged that the men of the club take more interest in the work.

George Vineyard of Amarillo reported on the activities of scouting in other towns, and stated that Canyon should have three troops instead of only one, now composed of 26 boys.

Visitors present were: Emmett Galloway, Marvin Paul, A. E. Massengale, J. S. Fischer, H. C. Ferguson, Chas. Whittenberg, Jr., George Vineyard, all of Amarillo; H. S. Benjamin of Borger.

RECALLS BIG SNOW

LIFE BEGINS AT 65

Cheer up Grandpa, don't you cry!
You'll wear diamonds by and by.
Uncle Sam has money mills.
Made to grind out brand new bills
He will help you in your cause
With his old age pension laws.
No more worry over bills,
Butcher's duns, or doctor's pills.
No more panic over rent.
Leave that all to government.
Dine of squab and caviar.
Sport a streamline motor car.
When the blizzards bliz a bit,
Off to Palm Beach gaily flit.
Lead a life of pleasure bent,
But you must spend every cent!
Whoopee, Grandpa! Stay alive!
Life begins at sixty-five!

Ask Information Regarding Upkeep of Cemetery Lots

The Cemetery Association wishes to ascertain if the owners of lots in Dreamland Cemtery would be interested in the employment of a man to care for the individual lots.

A lump sum, payable in advance annually, will have to be paid by lot owners to justify the Association in employing such a caretaker. Whether this work can be done, depends upon how great a number will subscribe to this plan. It cannot be done by a few individuals.

If you are interested, will you please call Mrs. Harvey Cash, chairman of this committee.

Miss Allen In High Praise Of Museum

"I think your museum is extremely interesting, and I think it wonderful the way you have taken care of everything," said Miss Susan J. Allen of Bermuda when she visited the Panhandle-Plains Historical Society Museum for the first time. Miss Allen came to Canyon to attend the annual meeting of the Historical Society and will be guest of honor at the banquet Friday night.

"I have loved the Southwest for a long time," said Miss Allen, "and can't remember when I first felt the urge to come to Oklahoma and New Mexico and see the Indians on their reservations.

It was in 1911 that Miss Allen first began her collection of Indian materials on a winter tour with her sister and parents in Florida and California. She was so interested in Indian handwork that her father bought 12 large fine Indian baskets at one time for her at an Indian benefit sale in San Francisco. On their return trip to New Jersey and Pennsylvania they stopped at all the Indian centers and added to her collection. In Albuquerque she acquired a blanket that was then more than 100 years old. This blanket now hangs in the Museum with five others which she has donated.

Miss Allen has two Indian collections—one private collection and a collection for an Indian school in New York. For many years she collected and sold material, particularly baskets, for the benefit of Indian children in this school. She has long had a deep interest in the welfare of Indians and in 1913 and 1915 attended Senate and House committees on Indian welfare and reservation management at Washington, D. C.

Miss Allen is no newcomer in this region, having toured this country quite extensively in 1917 and again in 1930, when she visited friends on the Circle G Galligar ranch near San Antonio. At this time she also made a long stay in Taos where she met Harold Bugbee and became very interested in his paintings of the southwestern desert lands.

"I have collected things ever since I was big enough to walk around with my brother," says Miss Allen. Before she could run fast enough to catch butterflies and moths, she collected wooly worms and caterpillars by the cansfull when they fell off the walnut trees at her childhood home in New Jersey. The flat board on which she and her brother mounted their butterflies and moths when they were growing children is on display at the museum.

Among her collections, Miss Allen names her Indian collection first and then her butterfly collection which she acquired in London in 1892 and remounted in 1902. This collection is also on display in the museum. She also has a coin collection, Norwegian costume collection and a unique book plate collection.

Miss Susan J. Allen will visit friends in the Panhandle before returning to her home in Bermuda.
